A SEMINAR ON THE IMPACT OF COVID-19 ON CLINICAL RESEARCH LESSONS LEARNED AND FUTURE DIRECTIONS

OBJECTIVE OF THE SEMINAR

- To provide an overview of clinical research and its significance in healthcare, and to introduce the COVID-19 pandemic's impact.
- To explore how ongoing clinical trials were affected and adapted during the pandemic.
- To examine regulatory changes and ethical dilemmas in clinical research during the pandemic.
- To investigate the rise of telemedicine and remote monitoring in clinical trials.

RESOURCE PERSON

Mr. R. Manohar
Associate Professor
Dept of Pharmacology

PROGRAM REPORT

DATE: 30-01-2021

Program Name: A Seminar on Pharmacology and Toxicology in Drug Development and Research

Date: 29-01-2021

Details of Resource person:

Dr. Sultan Ali Basha

Principal

Safa College of Pharmacy, Kurnool, Andhra Pradesh

Venue: Seminar Hall

No. of participants: 28

TOPICS COVERED:

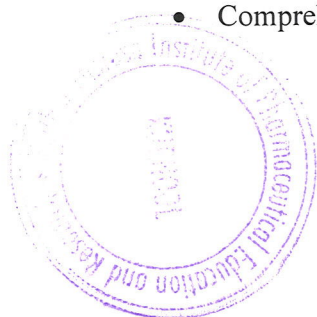

- Drug Discovery and Development
- Pharmacokinetics and Pharmacodynamics
- Preclinical Testing
- Drug Metabolism and Biotransformation
- Adverse Drug Reactions (ADR) and Pharmacovigilance

Objective of the program:

- To Explore Drug Development Stages
- To Analyse Toxicology Principles
- To Comprehend Regulatory Affairs
- To Emphasize Safety Assessment

PROGRAM OUTCOME:

- Evaluate Drug Actions:
- Analyse the pharmacokinetics and pharmacodynamics of drugs.
- Predict dose-response relationships.
- Conduct Safety Assessment:
- Design and interpret preclinical toxicity studies.
- Understand the ethical considerations in conducting clinical trials.
- Navigate Regulatory Processes: Explain the regulatory requirements for drug approval.
- Comprehend the role of regulatory agencies in ensuring drug safety.

About the College

MIPER is approved by Pharmacy Council of India (PCI), AICTE & affiliated to JNTUA Ananthapur and is located in the heart of Kurnool town. Institute offers four years B. Pharmacy course & six years Pharm. D course. MIPER is well equipped with the modern laboratories, smart lecture halls, computer lab with internet facility and seminar hall, students service society along with good library facilities.

MIPER has been successful in providing and maintaining high quality in teaching Pharmaceutical Sciences. MIPER offers students a holistic learning experience, combining rigorous academic curriculum, hands-on laboratory training, and exposure to real-world industry practices. Our graduates are equipped with the knowledge, skills, and ethical framework necessary to make a lasting impact in the pharmaceutical field. The institute prioritises excellence as a key goal, which is accomplished by instilling creativity, compassion, and leadership in every student. Our institution's uniqueness lies in offering a safe learning environment for students, where faculty members hold the students' hands from the start till completion of course, instilling confidence and increasing their knowledge and practical abilities.

TOPICS COVERED:

- Role of Technology in Clinical Trials
- IoT and Remote Monitoring
- Artificial Intelligence in Clinical Trials
- Ethical and Regulatory Considerations

Objective of the program:

- To Explore the Range of Emerging Technologies
- To Address Ethical and Regulatory Challenges
- To Analyse Real-World Case Studies
- To Encourage Interdisciplinary Collaboration

PROGRAM OUTCOME:

- Design Patient-Centric Trials:
- Develop clinical trial protocols and strategies that prioritize patient engagement, comfort, and data security through technology.
- Analyse and Interpret Data:
- Utilize data analytics tools and AI-driven models to analyse and interpret clinical trial data effectively.
- Identify Challenges and Solutions:
- Identify common challenges and limitations in technology-enabled clinical trials and propose solutions to mitigate them.

A SEMINAR ON CLINICAL DATA MANAGEMENT PHARMA RESEARCH

MIPER

17-04-2021

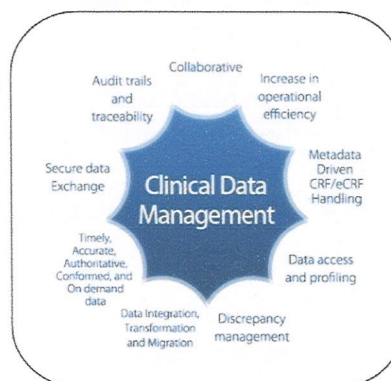

OBJECTIVE OF THE PROGRAM

The primary objective of CDM is to ensure the accuracy, consistency, and integrity of clinical trial data. Our data management processes play a pivotal role in achieving regulatory compliance and making well-informed decisions.

TOPICS COVERED

- Data Collection and Capture
- Data Validation and Cleaning
- Data Security and Confidentiality
- Regulatory Compliance
- Database Design and Maintenance

MIPER offers students a holistic learning experience, combining rigorous academic curriculum, hands-on laboratory training, and exposure to real-world industry practices. Our graduates are equipped with the knowledge, skills, and ethical framework necessary to make a lasting impact in the pharmaceutical field.

The institute prioritises excellence as a key goal, which is accomplished by instilling creativity, compassion, and leadership in every student. Our institution's uniqueness lies in offering a safe learning environment for students, where faculty members hold the students' hands from the start till completion of course, instilling confidence and increasing their knowledge and practical abilities.

PROGRAM REPORT

Date: 19-04-2021

Program Name: A Seminar on Clinical Data Management in Pharma Research

Date: 17-04-2021

Venue: MIPER auditorium

No. of participants: 30

Details of Resource person:

Dr. V Jayashankar Reddy
Professor & Vice Principal
Dept of Pharmacology
Krishna Teja college of Pharmacy, Tirupati
Email: nihaifaiz@gmail.com

Objective of the program:

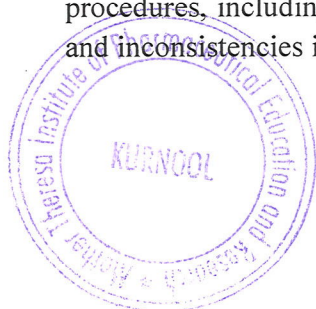

The primary objective of CDM is to ensure the accuracy, consistency, and integrity of clinical trial data. Our data management processes play a pivotal role in achieving regulatory compliance and making well-informed decisions.

TOPICS COVERED:

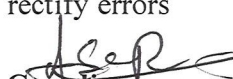

- Data Collection and Capture
- Data Validation and Cleaning
- Data Security and Confidentiality
- Regulatory Compliance
- Database Design and Maintenance

PROGRAM OUTCOME:

The Clinical Data Management (CDM) are statements that define the expected achievements and competencies of individuals completing a CDM program. Graduates will demonstrate proficiency in accurate and compliant data collection and entry methods, ensuring the integrity and reliability of clinical trial data. Will be able to implement data quality assurance procedures, including validation checks and cleaning processes, to identify and rectify errors and inconsistencies in clinical data.

ABOUT COLLEGE

MIPER is approved by Pharmacy Council of India (PCI), AICTE & affiliated to JNTUA Ananthapur and is located in the heart of Kurnool town. Institute offers four years B. Pharmacy course & six years Pharm. D course. MIPER is well equipped with the modern laboratories, smart lecture halls, computer lab with internet facility and seminar hall, students service society along with good library facilities. MIPER has been successful in providing and maintaining high quality in teaching Pharmaceutical Sciences.

MIPER offers students a holistic learning experience, combining rigorous academic curriculum, hands-on laboratory training, and exposure to real-world industry practices. Our graduates are equipped with the knowledge, skills, and ethical framework necessary to make a lasting impact in the pharmaceutical field.

The institute prioritises excellence as a key goal, which is accomplished by instilling creativity, compassion, and leadership in every student. Our institution's uniqueness lies in offering a safe learning environment for students, where faculty members hold the students' hands from the start till completion of course, instilling confidence and increasing their knowledge and practical abilities.

Objectives:

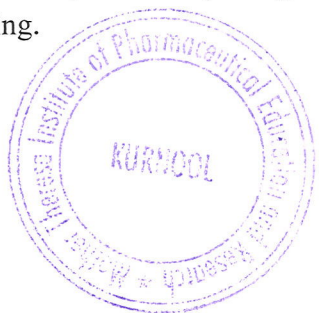

The primary objective of ensuring ethical considerations in pharmaceutical research is to safeguard the rights, well-being, and dignity of research participants while upholding the highest standards of scientific integrity. This commitment to ethical conduct serves to protect human rights.

Topics covered:

- Data Integrity and Reporting
- Privacy and Confidentiality
- Conflict of Interest
- Compliance with Regulations
- Animal Welfare
- Transparency and Accountability
- Continuous Ethical Oversight

Program outcome:

Upon successful completion of the program on "Ethical Considerations in Pharmaceutical Research," participants will be equipped with the knowledge, skills, and ethical awareness necessary to engage in pharmaceutical research with the utmost integrity and responsibility. Participants will be capable of making informed and ethical decisions at every stage of the research process, from study design and participant recruitment to data collection, analysis, and reporting.
