The Director,
Mother Theresa Institute of Pharmaceutical Education & Research (MIPER),
Kurnool, 518 002.
Andhra Pradesh.

Dear Sir,

I am writing to you today to request financial support for the publication of my articles and textbook. I am working as a Professor at MIPER, and I have been working on these publications for the past few months.

I have been working diligently on article work that has culminated in a comprehensive manuscript. The work is a significant contribution to the field of pharmaceutical sciences, and I believe that publishing it as a book will not only benefit the academic community but also enhance the reputation of our college. The publication will allow the findings and insights to reach a wider audience and contribute to the advancement of knowledge in our discipline.

Additionally, I have been actively involved in writing research articles for esteemed journals, and some of my work has been accepted for publication. However, these publications require payment of article publication charges, which can be quite substantial. As a dedicated researcher, I am committed to disseminating my work and sharing valuable knowledge with the scholarly community.

Considering the significance of these endeavours and their potential impact on the college's reputation and academic standing, I kindly request financial assistance from the college to support the publication of my book and cover the associated article publication charges. The estimated cost for these endeavors is as follows:

Book Publication:

Printing and Publishing Costs: 3000 Rs

Editing and Proofreading Services: 3000 Rs

Design and Layout: 2000 Rs

Total: 8000 Rs

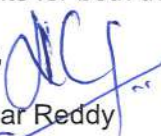

Article Publication Charges:

Article 1: 5000 Rs

Article 2: 6000 Rs

The total amount required for the book publication and article publication charges is 19000 Rs. I understand that the college has limited financial resources, but I sincerely believe that investing in the dissemination of knowledge through these publications will yield long-term benefits for both the college and the academic community.

Yours sincerely,

Dr. J. Ravi Kumar Reddy
Professor, MIPER
