CIRCULAR

All teaching and non-teaching staff, along with students, are hereby informed that our college has incorporated an environmentally conscious policy, resulting in the **prohibition of all single-use plastics** within the college campus and its premises. Our primary objective is to promote the use of reusable bags crafted from materials such as cloth and kraft paper. It is our duty to take decisive action against the use of plastic within the college premises. While plastic has become an integral part of our daily lives, it stands out as one of the most harmful pollutants in our environment. The non-degradable nature of plastic has adverse effects on soil fertility. Therefore, it is imperative to discourage its usage. A simple way to reduce plastic consumption is to refill reusable water bottles instead of opting for the plastic bottles.

CIRCULAR

This is to inform all staff, non-teaching personnel, and students about our continuous dedication to environmental sustainability and the maintenance of a pristine and clean campus. We are pleased to share that we have initiated an all-encompassing solid waste management plan at our college “**PROHIBITION OF PLASTIC USE IN THE CAMPUS**”. Through the incorporation of diverse measures, our objective is to diminish our environmental impact, encourage responsible waste management practices, and establish a campus that is cleaner and healthier for all. Consequently, we request everyone to utilize designated biodegradable and non-biodegradable bins placed throughout the college for proper waste disposal.
