"SOFTWARE CAREERS IN HEALTH CARE SECTOR"

Program Understanding

Real Time Internship is a 2 months intensive (120 Hr), experiential learning program designed to make the students employable. This program helps students build their profile aligned to a job role in the market, it also help them become project-ready.

Main objectives of the program:

- Utilize project-based learning to cultivate technical competency in students.
- Prepare students for the workforce by making them project-ready and aligning their profiles with industry job roles.
- Improve students' employability quotient and create a sustainable talent pool for Health-care Careers.
- Ensure efficient utilization of the time allocated for Internship in the curriculum.
- Increase students' job prospects by providing better employment opportunities.
