The COs is prepared by the methodical discussion with the relevant subject experts. These outcomes are clearly stated and prominently displayed on our MIPER official website, ensuring transparency and accessibility for all stakeholders.

By all means, we ensure the PO's&CO's are well understood by students in classrooms & Labs discussions. POs encapsulate the core competencies and skills that our graduates are expected to possess upon completion of their programs. They are designed to prepare students for professional success and ethical practice in the field of pharmacy. Each program's COs provide specific, measurable goals that students achieve through individual courses, ensuring a step-by-step progression towards the overall PO's
